Brief about the Company	<p>Paathshala Learning Solution Pvt Ltd was conceptualized and setup in 2012 by a set of highly successful professionals from the corporate world, who decided to follow their heart. Our hearts lay in one direction – taking development to the grassroots in India. Our learning & development products, whether in the educational or the corporate space, have a simple belief, that true learning is possible only when it touches the core belief system of the individual.</p> <p>We at Paathshala, advocate an experiential learning methodology that focuses on developing values, behaviours, competencies & functional skills that will make an individual successful in today's competitive world. Our programs are 'Transformational' grounding sessions, and completely experiential in nature. We blend in the appreciative inquiry process in our programs so that we are able to reach the core intrinsic belief system of our participants, thus, making the program's learning a sustainable and applicable model.</p>
